Stand rigging

To help you stand out from the other exhibitors, Excel offers a range of simple off-the-shelf banner rigging packages to make it easy to rig banners above your stand.

Simply head to [Excel's Webshop](#) to order. You will need to confirm your order 28 days before the start of the event tenancy to benefit from the advanced order rate.

If you need lighting or power for your rig, you will need to contact the appointed electrical contractor for the event.

If you have a complex requirement or need a bespoke solution from Excel, please email the [Excel Exhibitor Services team](#).
