

ExCeL London Expansion Project

Community Newsletter

July 2022

Project works

Main project works shall be taking place from 21st March 2022 until completion in 2024.

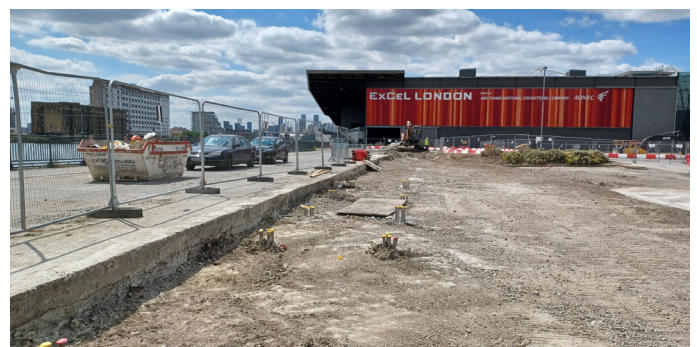

The last period of works on site has seen the completion of the dock-edge piling; as well as the continuation of pile probing and early ground works.

Through July you can expect to see:

- Demolition of the Level 1 deck.
- Continuation of pile probing and early ground works.
- Minor concreting repair works to the dock edge slab.
- Site street furniture removal.
- Preparatory works to the Formula-E track.

Between the 15th July, until the 8th August, Sir Robert McAlpine shall pause construction and hand the over control and management of the site to ExCeL London.

They will then initially hand the area over to firstly the Formula-E team to allow for the race itself to take place; swiftly followed by the London Triathlon.

Site Operating Hours

The site operates to the times agreed with the London Borough of Newham. Sometimes these hours will be extended to allow for an abnormal load, making an area safe, or other priority works.

In these cases the approved procedure to extend working hours will be followed, which includes notifying neighbours and other stakeholders.

Monday - Friday	08:00 – 19:00
Saturday	08:00 – 19:00
Sunday	09:00 – 18:00
Bank Holidays	No working

Community Engagement

Sir Robert McAlpine are committed to being considerate constructors, and recently scored 45/45 in our most recent Considerate Constructors Scheme audit, upholding our commitment to:

- Respecting our community.
- Caring for the environment.
- Valuing our workforce.

On Monday 11th July, starting at 17:30, we will be hosting our monthly community meeting via Microsoft Teams, giving you the chance to hear about the development and meet the construction team.
